Dx series & Panasonic heads

**SWISSJET SE** for Epson TFP

Precision Core serial printheads

## PRODUCT DESCRIPTION

- Produces superior color results with the industry's largest color gamut
- Specially formulated to provide extended run-ability with minimal maintenance and maximum uptime
- Provides better ink yield resulting in high density images with lower ink consumption
- Dries quickly to improve color uniformity and reduce waste
- Operates at high-speed print modes without sacrificing color fidelity
- High yield transfer rates with all commercially available transfer papers
- Oeko-Tex 100, RoHS and CPSIA compliant
- Manufactured free of hazardous air pollutants (HAPs) & toxic air pollutants (TAPs)
- Aqueous ink formulated without VOCs for a safer work environment
